am submitting this article because I believe it should be published in the Portuguese Journal of Pediatrics (justify the submission to this journal):

In addition, I confirm that:

- (1) the article is an original work, has not been published previously, in whole or in part, has not been and will not be submitted for publication in another journal or by other means of publication while awaiting the final decision of the Portuguese Journal of Pediatrics;
- (2) all authors authorise the publication of this article in the Portuguese Journal of Pediatrics, and this is stated in the document attached (**Copyright Liability Statement**);
- (3) all authors had a significant contribution to the drafting of this article, and this is stated in the document attached (**Copyright Liability Statement**);
- (4) the existence of conflicts of interest for each author is expressed in the document attached (**Individual Declaration of Conflicts of Interest, ICMJE template**);

- (5) the sources of funding for this study (note: this point refers to the existence of sources of funding for the study in question and not for each individual author) are as follows:
- it **has been** subject to funding
 - it **has not been** subject to funding

Specify the sources of funding for this study (if applicable). State if the source of funding had a role in the study design or in the decision to submit the article for publication.

- (6) the funding sources of this study are explicitly declared in the article (if applicable);
- (7) this article was prepared in accordance with the publication standards of the Portuguese Journal of Pediatrics and I accept that, if the article does not strictly respect them, it is to be returned without starting the peer review process;
- (8) this article does not infringe any other authorship rights and does not violate any right of privacy;
- (9) the final version of this article was read and approved by all the authors (as stated in the **Copyright Liability Statement**), and that they agree with the order and number of authors defined in the submission;
- (10) applicable ethical and deontological principles have been respected as well as the applicable laws, and the regulations of the Helsinki Declaration (1964) and its later amendments (Tokyo 1975, Venice 1983, Hong Kong 1989, Somerset West – South Africa 1996, Edinburgh 2000, Washington 2002, Tokyo 2004 and Seoul 2008) (applicable for studies involving humans).
- (11) this study was authorised by the ethics committees of the institutions where it was carried out, as defined by the current legislation, and I have in my possession the documentation of this authorisation, which will be made available if requested by the Portuguese Journal of Pediatrics (if applicable).
- (12) the individuals participating in the study, or their legal representatives, were informed of the objectives, conditions and publication of the results obtained, and agreed to participate in the study by signing an informed consent form of such participation. I confirm that I have in my possession that informed consent document, which will be made available if requested by Portuguese Journal of Pediatrics (if applicable).

Date:

Signature (corresponding author):

Note: If the software allows the use of a digital signature, it may be used.

To be provided when requested by the editors:

1. Authorisation of the contributors mentioned in the acknowledgements section (if applicable);
2. Letter of approval by the Ethics Committee of the involved institutions (if applicable);
3. Statement of informed consent of all the participants in the study or its legal representatives (if applicable);
4. Statement of informed consent from each individual present in photographs, even after appropriate measures to preserve anonymity are taken (if applicable);
5. Authorisations for the use of previously published material (if applicable).
